EDUCATION

Madhav Institute of Technology and Science, Gwalior, India

August 2022 - June 2026

Bachelor of Technology in Mathematics and Computing, CGPA - 8.89 / 10.0

TECHNICAL SKILLS

Programming Languages: C, C++, SQL

Computer Science Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Concurrency & Multithreading, Software Engineering (SDLC), Design Patterns, Debugging

Backend & APIs: POSIX Sockets, FastAPI, RESTful APIs, Postman (API testing)

Applied AI: Python, LangChain, Sentence Transformers, Streamlit, LLM APIs (Groq, Google Gemini), Whisper

Developer & Deployment Tools: Git, GitHub, Docker, Docker Compose, GitHub Actions, Linux, Bash, Vercel, Render, Cloud Fundamentals (GCP)

PROJECTS

Mini-Redis - Persistent Multithreaded Key-Value Store

April 2026

C++, POSIX Sockets, Multithreading, Docker, Docker Compose, Bash, GitHub Actions | [GitHub](#)

- Architected a custom key-value store from scratch, utilizing POSIX sockets and multithreading (`std::thread`, `std::shared_mutex`) to efficiently manage concurrent TCP client connections.
- Implemented thread-safe memory operations and an automated write-on-close disk snapshotting mechanism, ensuring zero data loss during graceful server termination (`SIGTERM/SIGINT`).
- Containerized the application using multi-stage Docker builds and Docker Compose, establishing a reliable deployment workflow with persistent volume mapping
- Configured automated CI with GitHub Actions to validate C++ builds and Docker image builds on pushes and pull requests.

MeetScribe - AI Meeting Intelligence Platform

May 2025

Python, FastAPI, React, Groq Whisper, Google Gemini, Resend, Tailwind CSS, Render | [GitHub](#)

- Built a full-stack meeting intelligence system with FastAPI REST APIs and React, enabling audio transcription, AI-powered meeting analysis, action-item extraction, and structured insights.
- Integrated Groq Whisper for fast multi-format audio/video transcription with 25 MB file validation.
- Integrated Google Gemini for structured meeting insights and Resend for email delivery, with CSV/JSON exports and production deployment on Render.

EXPERIENCE (OPEN SOURCE)

Open-Source Contributor | GirlScript Summer of Code (GSSoC) 2025

August 2025 - October 2025

- Resolved 25+ issues across 10 open-source projects by developing and successfully merging 25+ pull requests, focusing on bug fixes, feature implementation, and code reviews following open-source best practices.
- Earned 199 contribution points and secured Rank 86 (Top 2.9% of contributors) on the program leaderboard through consistent, high-quality open-source contributions.

ACHIEVEMENTS

- Solved 600+ Data Structures and Algorithms problems in C++, leveraging STL and advanced data structures while optimizing for time and space complexity. (Profile linked above)
- 3x Top Performer in Google Cloud Study Jams, GenAI Study Jams, and Arcade Games Campaign at MITS.
- Certifications: Fundamentals of Cloud Computing and Generative AI ([Google](#)); API Beginner Learning Path ([Postman](#)); Postman API Fundamentals Student Expert ([Postman](#)).

LEADERSHIP & COMMUNITY ENGAGEMENT

Google Developer Groups (GDG) on Campus MITS, Gwalior (formerly GDSC)

August 2023 - June 2025

Management Lead | September 2024 - June 2025

Management Coordinator | October 2023 - September 2024

- Led a cross-functional team to organize 10+ technical events, workshops, and hackathons for 1,100+ students.
- Coordinated with 15+ industry experts and developers, increasing community engagement by 60%.

Department of Mathematics and Computing, MITS, Gwalior

January 2025 - June 2025

Training and Placement Coordinator

- Led placement preparation initiatives for batch students through resume workshops, mock interviews, coding practice, and skill-building sessions.
